

1 F. The California Air Resources Board has put secondhand smoke in the same category as
2 the most toxic automotive and industrial air pollutants by categorizing it as a toxic air contaminant for
3 which no safe level of exposure exists.

4 G. Secondhand smoke is especially hazardous to particular groups, including those with
5 chronic health problems, the elderly, and children.

6 H. The CDC has found that secondhand smoke causes children to suffer from lower
7 respiratory tract illness, such as bronchitis and pneumonia; exacerbates childhood asthma; and increases
8 the risk of acute chronic middle ear infection in children.

9 I. Inside buildings, tobacco smoke contributes significantly to indoor air pollution.

10 J. The aesthetic impacts and odors of secondhand smoke pose a nuisance and annoyance to
11 non-smokers when in close proximity to people who are smoking.

12 K. Most Californians do not smoke and a majority favors limitations on smoking in multi-
13 unit rental housing, as evidenced by the following statistics:

- 14 1. 86% of Californians are non-smokers;
- 15 2. 78% of California voters support a law requiring apartment buildings to offer non-
16 smoking sections, where all the apartments, balconies, and patios in that section
17 were smoke-free, similar to the way that hotels offer non-smoking floors;
- 18 3. 74% of California voters favor having smoke-free sections in apartment buildings
19 so that 50% of the apartments would be non-smoking; and
- 20 4. 70% of California voters believe that a prospective tenant moving into an
21 apartment should be told if a tenant next door smokes.

22 L. Smoking in parks or recreational facilities endangers children and other users by
23 exposing them to secondhand smoke.

24 M. Within parks and recreational facilities, discarded cigarette and cigar butts (which do not
25 readily decompose) pose a particularly hazardous risk to small children who sometimes ingest the butt
26 or who handle it while it is still hot.

27 ///

28 ///

1 N. Discarding a lighted cigarette or cigar butt onto the ground in a city park or recreational
2 facility not only has the potential to cause a fire, but also is a major source of litter and pollution, by
3 washing into storm drains and then ultimately contaminating the ocean.

4 O. Under the city's storm water management permit from the Regional Water Quality
5 Control Board, Glendale must remove from its storm drains litter measuring as small as 5 millimeters,
6 and because most cigarette or cigar butts exceed that size, the city must eliminate cigarette or cigar butts
7 from its storm drains.

8 P. The city of Glendale is committed to keeping its housing and public spaces safe, healthy,
9 and pleasant for everyone.

10 Q. In outdoor dining areas; outdoor service areas; public transit vehicles, stations, and stops;
11 outdoor gathering and event areas; indoor and outdoor shopping areas and centers; elevators; indoor and
12 outdoor common areas of multi-unit rental housing and residential condominium complexes; in
13 proximity to entrances / exits, windows, and vents of buildings open to the public; and on balconies and
14 patios of multi-unit rental housing and residential condominium units, smoking endangers the health of
15 non-smokers who are in the same area.

16 R. Neither the United States Constitution nor the California Constitution gives a person a
17 constitutional right to smoke.

18 S. Therefore, not only restricting smoking on balconies and patios of multi-unit rental
19 housing and residential condominium units, in public spaces such as buildings, common areas of multi-
20 unit rental housing and residential condominium complexes, parks and recreational facilities, and at
21 other locations open to the public, but also regulating disposal of cigarettes, cigars, and tobacco products
22 are necessary acts to protect the health, safety, and welfare of Glendale residents, workers, and visitors.

- 3 calculating any fraction or partial number downward to the nearest whole number;
- 4 5. Must have all tables and chairs:
 - 5 a. Located:
 - 6 i. Inside of a physical barrier; or
 - 7 ii. The greatest distance practicable, but at least 10 feet away, from all
 - 8 tables and chairs in the indoor and outdoor non-smoking areas,
 - 9 measured from the clearly marked boundary described in
 - 10 subsection B(2) of this section; and
 - 11 iii. At least 20 feet away from an adjacent area or location— listed in
 - 12 Section 8.52.040(A), 8.52.050, 8.52.060, 8.52.070, or 8.52.080 of
 - 13 this chapter— where smoking is prohibited; and
 - 14 b. Arranged so that they cannot be placed deliberately or inadvertently within
 - 15 the 10 foot separation area or outside of the physical barrier;
- 16 6. Must not allow secondhand smoke to enter into one or more non-smoking areas
- 17 located on the same premises as the outdoor dining area’s designated smoking
- 18 permitted area; and
- 19 7. Must have at least 1 smoker’s waste receptacle on each table.

20 C. An employee, owner, manager, or person in charge or control of an outdoor dining area
21 shall ask a patron, before seating that person, whether the patron prefers seating in a smoking or non-
22 smoking part of the outdoor dining area.

23 D. An owner, manager, or person in charge or control of an outdoor dining area shall:

- 24 1. Maintain on the premises a plan or diagram of the outdoor dining area that depicts
- 25 and describes:
 - 26 a. The dimensions and layout of the outdoor dining area’s:
 - 27 i. Exterior boundaries;
 - 28 ii. Entrance / exit;

- iii. Non-smoking area;
- iv. Designated smoking permitted area; and
- v. Any physical barrier;
- b. The total number of tables and chairs in the outdoor dining area;
- c. The location of, and the separation distance between, tables and chairs in the outdoor dining area's:
 - i. Non-smoking area; and
 - ii. Designated smoking permitted area; and
- d. The material, object, or device placed as any physical barrier.

- 2. Permit the neighborhood services administrator, or a designee, at any time, to:
 - a. Enter and inspect the premises and the outdoor dining area; and
 - b. Examine and copy the plan or diagram that subsection (D)(1) of this section requires.

E. If an owner, manager, or person in charge or control of an outdoor dining area cannot satisfy all of the requirements listed in subsection B, C, and D of this section, the outdoor dining area is entirely a non-smoking area and Section 8.52.070 of this chapter applies.

SECTION 12. Section 8.52.130 of the Glendale Municipal Code, 1995, is amended to read as follows:

8.52.130 Multi-unit rental housing— Smoking permitted area.

A. Even though Section 8.52.080 of this chapter prohibits smoking in specific areas of multi-unit rental housing, a landlord of multi-unit rental housing may designate a portion of the premises' outdoor area as a smoking permitted area, when the smoking permitted area meets all of the requirements listed in subsection B and C of this section.

B. A smoking permitted area:

- 1. Must be located the greatest distance practicable, but at least 20 feet away, from:
 - a. A non-smoking rental unit;

///

- b. An indoor common area of multi-unit rental housing where smoking is prohibited;
 - c. An outdoor area that a child primarily uses, including, but not limited to, a playground or any other place improved or designated for a child's swimming or playing; and
 - d. An adjacent area or location— listed in Section 8.52.040(A), 8.52.050, 8.52.060, 8.52.070, or 8.52.080(A)(1)(b), (A)(2)(b), or (B)(2) of this chapter— where smoking is prohibited;
2. Must measure 40 square feet or less in total area;
 3. May be combined or merged with another on-site smoking permitted area;
 4. Must have a clearly marked perimeter;
 5. Must be identified by one or more posted "Smoking Permitted" signs; and
 6. Must have at least 1 smoker's waste receptacle.

C. The number of smoking permitted areas within multi-unit rental housing, as determined by the multi-unit rental housing's total lot area, must not exceed the corresponding numerical limit listed in the following table:

Smoking Permitted Areas in Multi-unit Rental Housing	
Square Feet of Total Lot Area	Number of Smoking Permitted Areas

17 C. The City Council declares that exposing another person to secondhand smoke, by
18 committing a violation of this chapter, is a public nuisance.

19 D. In addition to, or in place of, prosecuting a criminal action under this chapter, the city
20 attorney may take any one or more lawful steps, including, but not limited to, commencing one or more
21 civil actions, or administrative proceedings, or both, in the manner the law provides to:

- 22 1. Enforce this chapter's provisions;
- 23 2. Obtain one or more appropriate remedies available at law or in equity; and
- 24 3. Recover the city's costs for taking action under this section.

25 E. A person may bring a civil action to enforce any one or more provisions of this chapter.
26 Nothing in this chapter precludes a person from seeking any other remedy, penalty, or procedure that the
27 law provides.

4 **SECTION 22.** Section 8.52.230 of the Glendale Municipal Code, 1995, is amended to read as
5 follows:

6 **8.52.230 Enforcement of Labor Code Section 6404.5.**

7 A. Neighborhood services inspectors and Glendale police department officers may enforce
8 the provisions of California Labor Code Section 6404.5, or any successor legislation, governing
9 smoking in enclosed places of employment.

10 B. In performing the function of monitoring and enforcing compliance with the provisions
11 of Labor Code Section 6404.5, neighborhood services supervisors and inspectors, who have successfully
12 completed a course and a written examination, through California's Commission on Peace Officer
13 Standards and Training, on the laws and powers of arrest under California Penal Code Section 832, or
14 any successor legislation, and whom the neighborhood services administrator has authorized to engage
15 in enforcement activity, have the power, authority, and immunity of a California peace officer to issue
16 infraction citations for a violation of California Labor Code Section 6404.5. However, because these
17 individuals are non-sworn personnel and are not peace officers, they shall not make custodial arrests, or
18 carry or use a firearm within the scope and course of their employment, or both.

19
20 **SECTION 23.** Section 8.52.240 is added to the Glendale Municipal Code, 1995, to read
21 as follows:

22 **8.52.240 Other applicable laws.**

23 A. This chapter is in addition to any other prohibition or limitation on smoking under
24 federal, state, or local law. The City Council intends this chapter to supplement— and not to duplicate
25 or contradict— other applicable law.

26 B. This chapter must not be construed or interpreted to permit smoking when another
27 applicable law prohibits or restricts it. If another applicable law is more restrictive in regulating
28 smoking, that law governs.

1 **SECTION 24.** Section 1.20.010(D) of the Glendale Municipal Code, 1995, is amended to
2 read as follows:

3 **1.20.010 Penalties and punishment for code violations.**

4 D. A violation of the following Glendale Municipal Code sections shall be deemed an
5 infraction punishable as provided in subsection B of this section, except that all violations after three (3)
6 convictions or nolo contendere pleas, or any combination totaling three (3), within one (1) year, shall be
7 misdemeanors punishable pursuant to Section 1.20.010(A): Sections 8.32.030, 8.32.050, 8.44.050(D),

21 **SECTION 25.** Section 14.2 of Volume VII of the Glendale Building and Safety Code, 2008,
22 is amended to read as follows:

23 **14.2. Address Number and Identifying Data:** Address numbers and other identifying data shall be
24 displayed as follows:

25 1. All residential dwellings shall display an address number in a prominent location on the
26 street side of the residence in such a position that the number is easily visible to approaching emergency
27 vehicles. The numerals shall be no less than four (4) inches (102mm) in height and shall be of a
28 contrasting color to the background to which they are attached. In addition, any residence which affords

1 vehicular access to the rear through any driveway, alleyway or parking lot shall also display the same
2 numbers on the rear of the building.

3 2. Multiple Family Dwelling; Illuminated Diagrams and Identification Numbers: There
4 shall be positioned at each entrance of a multiple family dwelling complex an illuminated diagrammatic
5 representation of the complex which shows the location of:

- 6 a. The viewer;
- 7 b. The unit designations within the complex;
- 8 c. Each unit that is a "smoking" unit and a "non-smoking" unit (as governed by
9 Chapter 8.52 of the Glendale Municipal Code, 1995, or any successor legislation);
- 10 d. A smoking permitted area authorized under Section 8.52.130 of this chapter; and
- 11 e. The complex's exits, stairwells, elevators, fire alarm annunciator panels, and
12 standpipes.

13 In addition, each individual unit within the complex shall display a prominent identification number, not less
14 than four (4) inches (102mm) in height, which is easily visible to approaching vehicular and/or pedestrian
15 traffic. In addition, any multiple family dwelling which affords vehicular access to the rear through any
16 driveway, alleyway or parking lot shall also display the same numbers on the rear of the building.

17
18 **SECTION 26. Compliance with California Environmental Quality Act.**

19 The City Council finds and determines that this ordinance is not subject to the California
20 Environmental Quality Act ("CEQA") and, therefore, an environmental review is not required under
21 Section 15060(c)(2) [the activity will not result in a direct or reasonably foreseeable indirect physical
22 change in the environment]; Section 15060(c)(3) [the activity is not a project as defined in Section
23 15378]; and Section 15061(b)(3)[no possibility exists that the activity in question may have a significant
24 effect on the environment] of the CEQA Guidelines, California Code of Regulations, Title 14, Chapter
25 3, because the ordinance:

- 26 1. Has no potential for resulting in physical change to the environment, directly or
27 indirectly; and
- 28 2. Prevents changes in the environment.

RECOMMENDATION

It is recommended that City Council adopt the Ordinance amending Chapter 8.52 of the Glendale Municipal Code as introduced on February 23, 2010, and later revised pursuant to direction received from City Council. The ordinance provides changes in the current regulations and corrects minor verbiage issues, thereby improving the Ordinance's effectiveness in reducing exposure to second-hand smoke.

SUMMARY

At the February 23, 2010 meeting, City Council reviewed a staff report and received testimony on proposed revisions to the City's codes relating to exposure to second-hand tobacco smoke. Several changes to the existing ordinance were proposed and staff requested direction on four other issues.

Following a lengthy discussion, City Council introduced an ordinance which included the following provisions:

The prohibitions against smoking in common areas of multi-family housing (such as corridors, pool decks, walkways, etc) were extended to condominium developments.

Smoking is now prohibited on the balconies and patios of multi-family units, both in apartments and condominiums.

The requirement to issue a warning prior to issuing a citation was removed and the violation of the codified smoking prohibitions is now defined simply as smoking in a place where smoking is prohibited by the ordinance.

Property owners are required to post "Smoking Prohibited" signs in areas where smoking is now prohibited.

Apartment owners must display and maintain a map showing the location of smoking permitted units and smoking prohibited units.

"Houses of Worship" are entirely exempt from requirements of the local ordinance. However, "Houses of Worship" that qualify as a "place of employment" are not exempt from California Labor Code Section 6404.5, which regulates smoking in places of employment.

The City Council directed staff to remove provisions relating to the required separation of smoking-permitted units and smoking prohibited units in apartments, but to proceed with an outreach effort to encourage a voluntary effort by property owners to make their properties smoke free, and in the interim, to separate units as was originally proposed.

FISCAL IMPACT

The adoption of the ordinance does not result in any further fiscal impact beyond that which was considered and approved at the February 23, 2010 meeting to extend outreach and education efforts for one additional year.

It is anticipated that the extended outreach effort which was funded by this action will commence in April and conclude in March 2011.

RELATION TO CITY'S STRATEGIC GOALS

Efforts to address the affects of second-hand smoke are in keeping with the adopted goal for Health and Wellness of the Community in the City's strategic directions: "A physically and mentally healthy community with quality health care services for all residents."

BACKGROUND

Glendale's latest Fresh Air ordinance has been in effect since November 2008, when City Council expanded existing regulations intended to reduce exposure to second-hand smoke in public places. Early on, staff and City Council realized that the ordinance and the community change that the ordinance both determined and symbolized would be a significant undertaking, and one that would be achieved over time. In that same vein, staff and City Council realized that this effort is a "work in progress" and that the strategy and ordinance should be periodically reviewed.

The first review came six months after implementation, at which time City Council provided staff with feedback on some problematic issues, and directed that staff bring back an updated ordinance. The ordinance, updated based on this direction was presented on February 23, 2010, along with four additional areas about which staff desired further direction.

After hearing testimony from the community and reviewing the information provided by staff, City Council commenced a debate on the different issues before them. Following the discussion, the draft ordinance was introduced with minor modifications. City Council also directed staff to make a couple of incidental changes to the ordinance, based on the results of their discussion, to be included in the ordinance presented for adoption.

During the time since that meeting, staff has made the changes to the ordinance requested by City Council.

Revisions Contained in the Final Ordinance

The ordinance presented for adoption is substantially the same as that introduced by the City Council on February 23, 2010. Pursuant to the motion introducing the ordinance, staff made the minor adjustments to the ordinance in preparation to consideration for final adoption. In this final form, the ordinance includes both substantive changes as requested by the City Council and minor "housekeeping" type revisions. The minor revisions include:

- A statement that "smoking" is not a constitutionally-protected act;
- Re-organizing of outlined lists contained in the ordinance;
- Clarified definitions;
- Better consistency between similar code provisions;
- Clarification of certain provisions of the ordinance; and
- Elimination of Park Rangers from the list of city officials authorized to enforce this ordinance.

In addition to these "housekeeping"-type revisions, there are other significant revisions to the second-hand smoke ordinance. These changes were fully discussed by City Council at the February 23, 2010 meeting and include:

1. All buildings will need to display a site plan showing the location of smoking permitted and smoking prohibited units. The City's Building and Safety Code currently requires owners to display a site plan (for firefighter's use) at the front entrance of their apartment building. The ordinance amends the Building and Safety Code to add the location of smoking and non-smoking units as a required element on the posted site plan.
2. Another major revision to the ordinance is the requirement for posting "No Smoking" signs at places where smoking is prohibited near each entrance, exit and at least one other noticeable place within that location. This provision corrects an omission in the original ordinance.
3. The ordinance redefines the crime of smoking in a smoking-prohibited area by removing the requirement to issue a warning before issuing a citation, allowing citations to be issued immediately by either Police Officers or the City's code enforcement personnel. As with all enforcement efforts, City enforcement personnel are expected and will continue to exercise their professional discretion when they encounter individuals smoking in prohibited places.
4. A provision exempting "Houses of Worship" from the requirements of the ordinance was added. As directed by City Council, the exemption is broad and is not limited to the rituals or ceremonial practices that might be typical of a religious service. The exemption will not apply to the portion of the premises on which the house of worship operates a school, child care facility, or senior citizen facility, during the period that the school, child care facility, or senior citizen facility is in operation. It should be noted that this exemption applies only to

the Glendale Municipal Code and does not apply to any State or Federal laws and regulations.

5. The new ordinance includes provisions to address complaints from non-smoking apartment dwellers about second-hand smoke traveling from the balconies of other units to and into their non-smoking units. Even in smoking-permitted units, smoking will now be prohibited on the balcony or patio, and limited to either the inside of the unit or to a designated smoking-permitted area on the complex.
6. The new ordinance now extends the prohibitions against smoking to the common areas of condominiums as well as apartments.

Staff removed the requirement that smoking permitted units be separated from non-smoking units in apartment buildings.

Once adopted, more aggressive enforcement of the smoking prohibitions is set to begin. Neighborhood Services personnel will provide training to the different Police shift briefings to make sure that the new requirements are clearly communicated. Also planned, are separate direct-mail pieces sent to the owners of apartment buildings and the occupants of condominiums to advise them of the requirements unique to each of their situations. An effort will be undertaken to get apartment owners to voluntarily separate and cluster their smoking-permitted units from their smoking prohibited units.

Following the strategy to periodically review the Fresh Air program, staff anticipates presenting the next update to City Council in late summer, 2010.

CONCLUSION

As noted previously, there has been a noticeable and documented change in the public environment with regard to second-hand smoke. Since the implementation of the strategy associated with the "Fresh Air" ordinance, there is less smoking in those public places where smoking is prohibited. Anecdotal evidence suggests that residents are aware of the new requirements and there is a greater degree of compliance. This is due in large part to the outreach and promotion efforts undertaken so far, as well as the education efforts by the code enforcement staff throughout the year.

After one year, some significant shortcomings were noted in the initial strategy and the ordinance. Two of these included the "warning requirement" and well as the omission for proper signing at smoking prohibited locations. Others dealt with areas or locations where smoking prohibitions might make some logical sense. The ordinance presented for adoption corrects these problems and address other minor issues.

The strategy of adopting an initial ordinance and then adjusting it over time as issues arise during implementation has worked well. The ordinance resulting from this most recent review follows that pattern, and has been revised based on previous City Council direction. It has always been understood that this effort will take time to produce long-term and sustainable results. The groundwork for this change has been put in place with the original ordinance. The amendments and changes contained in the ordinance presented for adoption with this report strengthen and support the work that has already been done.
