

# Window Sign Coverage

The City of Glendale realizes signs are important to both businesses and customers. Well-maintained and uncluttered signs help promote business while presenting a pleasant and professional appearance. Chapter 30.33 "Sign Code" of the Glendale Municipal Code regulates signs in Glendale.

There are two (2) types of window signs:  
Illuminated and Non-illuminated.

- 1 One (1) illuminated sign is permitted per window per frontage (dedicated street, alley, mall or parking lot area). Maximum of two (2) illuminated signs permitted per establishment. The maximum area of the sign shall not exceed four (4) square feet.

Note: A permit is required for any illuminated window sign.

- 2 An unlimited number of non-illuminated window signs constructed of other permitted material is allowed only on the interior surface of the window glass. Non-illuminated signs include painted signs, banners, etc.

The combination of all window signs cannot cover more than 25% of the window area.
