DRB Decision	Return for Redesign					

Conditions:

1. Reduce the floor area of the house to be more consistent with the surrounding neighborhood
2. Reduce the massing above the subterranean garage
3. Incorporate sloped roof forms to reduce sense of mass
4. Consult with Public Works Department to find alternatives solutions to the proposed roadwork, including possibly avoiding paving and/or reducing the width of the roadbed in order to avoid impacting the existing indigenous trees
