

NOTICE OF PLANNING COMMISSION PUBLIC HEARING

NOTICE IS HEREBY GIVEN:

Project Description

The draft Glendale Citywide Pedestrian Plan establishes a comprehensive, centralized, and coordinated approach to improving pedestrian infrastructure, safety, and demand in Glendale. The draft Pedestrian Plan establishes improving pedestrian safety as the City's highest transportation priority. The plan consolidates existing and recommended policies, projects, and programs from the Pedestrian Safety Task Force, the Pedestrian Safety Advisory Committee, and the existing Pedestrian Safety Action Plan—into a single master plan. The draft Pedestrian Plan encourages increased use of non-motorized and active transportation by outlining specific pedestrian improvements, policies, and programs. Pedestrian improvements are prioritized based on criteria that include proximity to schools, parks, civic institutions, transit, and residential and commercial areas with high pedestrian use. Particular emphasis is placed on improving pedestrian safety for transit connections and areas with high collision rates.

This will be an informational presentation that begins public review of the draft plan. Following review by the Planning Commission, Transportation & Parking Commission, and the public, the plan will be revised and ultimately presented to the City Council for adoption in 2018.
