

# Laundry to Landscape (L2L) Greywater System Program

The Laundry to Landscape Greywater System program offers a rebate of up to \$500 (not to exceed the actual installed cost) for residential customers who install a Laundry to Landscape (L2L) greywater system that does not require a City permit. These systems are designed to reuse the water from a washing machine to water your plants. It provides for an efficient means to irrigate plants in your landscape, and provides natural groundwater recharge.

GWP account number: \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_

## Rules and Requirements

**Please read the following rules and requirements for program participation and initial below:**

**Initial Here :**

|  |
|--|
| I am currently a GWP residential water customer.   |
| I am aware that the rebate application must be submitted no more than twelve months from the date of installation to qualify for a rebate.   |
| I understand rebates are issued in the form of a bill credit which will appear in the GWP bill in 1 to 2 billing cycles after receiving a completed application and all required documentation.  |
| If requested, I will provide a GWP representative reasonable access to my residence to verify the installed system before a bill credit is issued. I understand that a bill credit will not be issued if I refuse a verification inspection. |
| I am aware that GWP may at any time, modify, suspend, or terminate this program without prior notice.  |
| I am aware that funding is limited and are available on a first come first serve basis until funds have been depleted or program terminates. Rebate is limited to \$500 not to exceed the total cost of installation.                        |
| I am aware that incomplete or illegible applications will be denied.   |

I agree to comply with all applicable state and local laws pertaining to greywater systems.

Other eligibility requirements may apply.

## Supporting Documents

**The following documents are required to be submitted with this application:**

1. Copy of the receipt or invoice for the system
2. Photograph of the installed greywater system
3. Copy of labor receipt

Send application and all supporting documents to:

Email: [GWPrebates@GlendaleCA.gov](mailto:GWPrebates@GlendaleCA.gov) Fax: 1-818-240-6492

Mail: Glendale Water & Power

Attn: Conservation & Utility/Business Modernization Division

141 N. Glendale Ave. Level 1

Glendale, CA 91206

## What are the minimum requirements that I need to follow for my greywater system to comply with the law?

Under the California greywater code, CPC Title 24, Part 5, Chapter 16, washing machines do not require a permit as long as the installer follows the following minimum requirements outlined in the code:

1. If required, notification has been provided to the Enforcing Agency regarding the proposed location and installation of a greywater irrigation or disposal system. Note: A city, county, or city and county or other local government may, after a public hearing and enactment of an ordinance or resolution, further restrict or prohibit the use of greywater systems.
2. The design shall allow the user to direct the flow to the irrigation or disposal field or the building sewer. The direction control of the greywater shall be clearly labeled and readily accessible to the user.
3. The installation, change, alteration or repair of the system does not include a potable water connection or a pump and does not affect other building, plumbing, electrical or mechanical components including structural features, egress, fire-life safety, sanitation, potable water supply piping or accessibility.
4. The greywater shall be contained on the site where it is generated.
5. Greywater shall be directed to and contained within an irrigation or disposal field.
6. Ponding or runoff is prohibited and shall be considered a nuisance.

7. Greywater may be released above the ground surface provided at least two (2) inches (51 mm) of mulch, rock, or soil, or a solid shield covers the release point. Other methods which provide equivalent separation are also acceptable.
8. Greywater systems shall be designed to minimize contact with humans and domestic pets.
9. Water used to wash diapers or similarly soiled or infectious garments shall not be used and shall be diverted to the building sewer. Greywater shall not contain hazardous chemicals derived from activities such as cleaning car parts, washing greasy or oily rags, or disposing of waste solutions from home photo labs or similar hobbyist or home occupational activities.
10. Exemption from construction permit requirements of this code shall not be deemed to grant authorization for any greywater system to be installed in a manner that violates other provisions of this code or any other laws or ordinances of the Enforcing Agency.
11. An operation and maintenance manual shall be provided. Directions shall indicate the manual is to remain with the building throughout the life of the system and indicate that upon change of ownership or occupancy, the new owner or tenant shall be notified the structure contains a greywater system.

**DECLARATION: (Please sign and date below)**

I state that the information I have provided in this application is true and correct.

By checking this box, I confirm the information provided is accurate, and agree to receive calls at the above number, through an automatic-dialing announcing device (ATDS), or a prerecorded message from, or on behalf of, Glendale Water & Power for rebates, savings, and/or other Public Benefit Programs. I understand that consent to receiving these calls is not required to enroll in this income-qualified program and that message and data rates may apply.
