PROJECT BACKGROUND

The new full-service restaurant, Panini Kabob Grill, recently opened in tenant space #1002A at 1322 Glendale Galleria in the Glendale Galleria mall, formerly occupied by a McDonald's fast-food restaurant. The full-service restaurant includes an expanded outdoor seating area. Panini Kabob Grill serves Mediterranean food in a sit-down restaurant setting and has locations across Los Angeles, Orange and San Diego

Counties. Previous and concurrent planning approvals that are relevant to the AUP request are noted below.

Previous Permits for the Site:

On April 20, 1994, Use & Occupancy Certificate No. BUO-15276 was issued for “Ruby’s Glendale Galleria,” a restaurant at 1322 Glendale Galleria.

On February 11, 1998, Use & Occupancy Certificate No. BUO-18854 was issued for McDonald’s, a fast-food restaurant at the same address. The fast-food restaurant closed permanently in 2022.

Related Concurrent Permit Application(s):

On August 30, 2023, Building Permit No. BCOMM-000990-2022 was issued for tenant improvements for the 3,330-square foot Panini Kabob Grill including a new 319-square foot outdoor patio dining area increasing the restaurants total outdoor patio area to 972-square feet, and to construct a new accessible ramp. This building permit was finalized on September 3, 2024.

Environmental Determination:

The project is exempt from CEQA review as a Class 1 "Existing Facilities" exemption, pursuant to Section 15301(e) of the State CEQA Guidelines because the discretionary permit request is to allow the on-site sales, service and consumption of beer and wine at an existing full-service restaurant within an existing commercial center and there is no added floor area proposed.

General Plan:

DSP/GAL – Downtown Specific Plan, Galleria District

Zone:

DSP/GAL – Downtown Specific Plan, Galleria District

Description of Existing Property and Uses:

Panini Kabob Grill is a full-service restaurant located in the Glendale Galleria commercial shopping mall that includes many retail, service and restaurant uses within the traditionally designed indoor mall. As noted above, Building Permit No. BCOMM-0009900-2022 was recently finalized for the subject tenant space and the restaurant recently began operating, in September. The 3,330-square foot tenant space has a 1,310-square foot interior dining area along with a 972-square foot outdoor dining area. The restaurant is located directly across from the Galleria’s parking structure that is accessed via Glendale Galleria Way, which is an internal road used for vehicular circulation. The nearest streets which provide vehicular access to the site are Broadway, South Columbus Avenue, and West Colorado Street. The restaurant’s primary entrance is located inside the Galleria with a secondary entrance accessed from Glendale Galleria Way.

These conditions will be made part of the decision letter if the Administrative Use Permit (AUP) is approved.

PROJECT ANALYSIS

The applicant is requesting an AUP to allow the on-site sales, service and consumption of alcoholic beverages (ABC License Type 41) at an existing restaurant (Panini Kabob Grill). The subject site is located within the DSP/GAL – Downtown Specific Plan, Galleria District. The Land Use Element of the General Plan designates the subject site as Downtown Specific Plan/Galleria District. Goods and services offered in this zone generally attract clientele from surrounding communities and adjoining residential neighborhoods, and the Glendale Galleria is a shopping destination. The on-site sales, service and consumption of beer and wine is appropriate in an area of the city zoned for commercial uses and approval of the AUP will provide the option for the dining public to enjoy beer and wine with their meals. The land use designation of the site is Downtown Specific Plan (DSP) where retail and restaurant uses along major and minor arterials, such as Broadway and East Colorado Street, are desired. One of the purposes of this designation is to encourage the location of a wide range of activities to maintain a dynamic commercial environment. The Land Use Element is the most directly related Element to the approval of this use and the other elements of the General Plan, will not be impacted as a result of the request.

The Circulation Element identifies Broadway as a minor arterial, East Colorado Street was major arterial and South Columbus Avenue as an urban collector. These streets are fully developed and can adequately handle the existing traffic circulation around the site, including that to and from the restaurant. The project site is surrounded by commercial and residential uses and the applicant's request to add beer and wine service to the existing full-service restaurant is not anticipated to create any negative traffic-related impacts along this street and other businesses over and above the existing conditions.

The on-site sales, service and consumption of beer and wine at the existing full-service restaurant will not be detrimental to the health, safety, and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject property is located in Census Tract 3023.01 where the suggested limit for on-sale establishments is four. Currently there are 17 on-sale establishments and Panini Kabob Grill will bring the total to 18. Based on arrests and Part 1 crime statistics for census tract 3023.01 in 2023, there were 2,214 crimes, 598% above the city-wide average of 317. The Glendale Police Department noted that concentration levels in this census tract are higher than average because they include two large shopping malls, the Americana at Brand and the Glendale Galleria, which generate a high volume of calls for police service. The Glendale Police Department did not cite any concerns with the applicant's request to allow the operation of a full-service restaurant with on-site sales, service and consumption of beer and wine at this location and suggested conditions of approval have been included to mitigate any potential negative impacts.

It is not anticipated that the operation of the existing full-service restaurant with the addition of on-site sales, service and consumption of beer and wine will be detrimental to the community or adversely conflict with the community's normal development and use of surrounding properties, as conditioned. The request is not anticipated to adversely conflict with surrounding properties or adjacent uses as it will be ancillary to the primary use, a full-service restaurant. Panini Kabob Grill operated at another location in Glendale from 2014 to 2022 in a responsible manner without incident. Further, Panini Kabob Grill is an established, well-operated chain with locations across Southern California with a proven track record of responsible operation. The subject property is located in the Glendale Galleria shopping mall and is directly across the street from the Americana at Brand shopping center with complementary businesses, including retail, service and residential uses located in the immediate vicinity. There are no public facilities, schools, or churches located within the immediate area of the subject site. There were no concerns or comments submitted by the Police Department or Neighborhood Services Division that would indicate that the addition of beer and wine to the existing full-service restaurant, Panini Kabob Grill, would have a negative impact on the surrounding area, and the proposed conditions of approval will serve to mitigate any potential negative impacts on the surrounding properties.

The applicant's request to allow the on-site sales, service and consumption of beer and wine at the existing full-service restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. The

Glendale Galleria contains over 6,000 parking spaces for patrons in two multi-level parking structures with vehicular access from the surrounding streets, including West Colorado Street, West Broadway, South Brand Boulevard, South Columbus Avenue, South Central Avenue, and South Orange Avenue. These streets are fully developed and can adequately handle the traffic circulation around the site, and it is not anticipated that the addition of beer and wine sales to the existing restaurant will result in inadequate parking. Accordingly, the applicant's request to allow the sale and service of beer and wine at the full-service restaurant in an existing commercial tenant space will not require any new city services, nor will it require any changes to the parking or traffic circulation.

Overall, the applicant's request to allow the on-site sales, service and consumption of beer and wine at the existing full-service restaurant, Panini Kabob Grill, is supportable based on the facts surrounding this application and the findings.

DRAFT FINDINGS

A. That the existing use will be consistent with the various elements and objectives of the general plan.

The on-site sales, service, and consumption of beer and wine at the existing full-service restaurant (Panini Kabob Grill) will be consistent with the various elements and objectives of the general plan. The subject site is zoned DSP/GAL – Downtown Specific Plan, Galleria District. The Land Use Element of the General Plan designates the subject site as Downtown Specific Plan/Galleria District. The Downtown Specific Plan seeks to preserve and enhance aspects which provide each district its unique character, while improving the attractiveness and livability of the Downtown area. Goods and services offered in this zone generally attract clientele from surrounding communities and adjoining residential neighborhoods, and the Glendale Galleria is a regional shopping destination. The on-site sales, service and consumption of beer and wine is appropriate in an area of the city zoned for commercial uses and approval of the AUP will provide the option for the dining public to enjoy beer and/or wine with their meals. The land use designation of the site is Downtown Specific Plan (DSP) where retail and restaurant uses along major and minor arterials, such as Broadway and East Colorado Street, are desired. One of the purposes of this designation is to encourage the location of a wide range of activities to maintain a dynamic environment in Glendale's downtown. Panini Kabob Grill is located in the Glendale Galleria, directly across from the Galleria's parking structure that is accessed via Glendale Galleria Way, which is an internal road used for vehicular circulation. The Land Use Element is most directly related to the approval of this use. All other elements of the General Plan, including Open Space, Recreation, and Housing Elements will not be impacted as a result of the applicant's request. The project site is fully developed and has not been slated for open space or recreation. The proposal is to allow the sales and service of beer and wine for on-site consumption at an existing restaurant, and is consistent with the Noise Element and is not anticipated to increase the existing noise levels beyond the current conditions. The

Circulation Element identifies Broadway as a minor arterial, East Colorado Street was major arterial and South Columbus Avenue as an urban collector. These streets are fully developed and can adequately handle the existing traffic circulation around the site, including that to and from the restaurant. The project site is surrounded by commercial and residential uses and the applicant's request sell and serve beer and wine in conjunction with the existing full-service restaurant is not anticipated to create any negative traffic-related impacts over and above the existing conditions.

B. That the use and its associated structures and facilities will not be detrimental to the public health or safety, the general welfare, or the environment.

The on-site sales, service and consumption of beer and wine at the existing full-service restaurant (Panini Kabob Grill) will not be detrimental to the health, safety, and public welfare of the neighborhood in general. According to the Glendale Police Department, the subject property is located in Census Tract 3023.01 where the suggested limit for on-sale establishments is four. Currently there are 17 on-sale establishments and Panini Kabob Grill will bring the total to 18. Based on arrests and Part 1 crime statistics for census tract 3023.01 in 2023, there were 2,214 crimes, 598% above the citywide average of 317. The Glendale Police Department noted that concentration levels in this census tract are higher than average because they include two large shopping malls, the Americana at Brand and the Glendale Galleria, which generate a high volume of calls for police service. The Glendale Police Department did not cite any concerns with the applicant's request to allow the operation of a new full-service restaurant with on-site sales, service and consumption of alcoholic beverages at this location and suggested conditions of approval have been included to mitigate any potential negative impacts.

C. That the use and facilities will not adversely affect or conflict with adjacent uses or impede the normal development of surrounding property.

It is not anticipated that the addition of beer and wine sales and service at the existing full-service restaurant will be detrimental to the community or adversely conflict with the community's normal development of surrounding properties, as conditioned. The request is not anticipated to adversely conflict with surrounding properties or adjacent uses as it will be ancillary to the primary use, a full-service restaurant. Panini Kabob Grill recently commenced operations at the subject site after operating for years at a location on Brand Avenue without any major incident. The subject property is located in the Glendale Galleria shopping mall and is directly across the street from the Americana at brand shopping center with complementary businesses, including retail, service and residential uses located in the immediate vicinity. There are no public facilities, school, or churches located within the immediate area of the subject site. There were no concerns or comments submitted by the Police Department or Neighborhood Services Division that would indicate that beer and wine service at the existing full-service restaurant, Panini Kabob Grill, would have a negative impact on the surrounding area, and the proposed conditions of approval will serve to mitigate any potential negative impacts on the surrounding properties.

D. That adequate public and private facilities such as utilities, landscaping, parking spaces and traffic circulation measures are or will be provided for the proposed use.

The applicant's request to allow the on-site sales, service and consumption of beer and wine at an existing full-service restaurant will not result in inadequate public or private facilities. The project site is already developed and associated facilities are existing. The Glendale Galleria contains over 6,000 parking spaces for patrons in two-multi-level parking structures with vehicular access from the surrounding street, including West Colorado Street, West Broadway, South Brand Boulevard, South Columbus Avenue, South Central Avenue, and South Orange Avenue. These streets are fully developed and can adequately handle the traffic circulation around the site, and it is not anticipated that the existing restaurant with on-site beer and wine sales will result in inadequate parking. Accordingly, the applicant's request to allow the operation of a new full-service restaurant with on-site sales, service and consumption of alcoholic beverages in an existing commercial tenant space will not require any new city services, nor will it require any changes to the parking or traffic circulation.

REQUIRED ADDITIONAL FINDINGS OF FACT FOR AN AUP FOR ALCOHOL SALES, SERVICE AND CONSUMPTION:

That all the criteria set forth in Section 30.49.030 (E) to be considered in making the findings in subsection A through D. above have all been met and thoroughly considered:

1. That where an existing or proposed on-site use is located in a census tract with more than the recommended maximum concentration of on-site uses or where an existing or proposed off-site use is located in a Census Tract with more than the recommended maximum concentration of off-site uses, both as recommended by the California Department of Alcoholic Beverage Control (ABC), such use does not or will not tend to intensify or otherwise contribute to the adverse impacts on the surrounding area caused by such over concentration as described in Finding B above.
2. That where the existing or proposed use is located in a crime reporting district with a crime rate which exceeds 20 percent of the city average for Part I crimes, as reported by the Glendale Police Department, such use does not or will not tend to encourage or intensify crime within the district because conditions of approval have been included in the approval of this application to ensure that any potential negative impacts will be appropriately mitigated, as described in Finding B above.
3. That the existing or proposed use does not or will not adversely impact any other uses within the surrounding area (church, public or private schools or college, day care facility, public park, library, hospital or residential use), as described in

Finding C above.

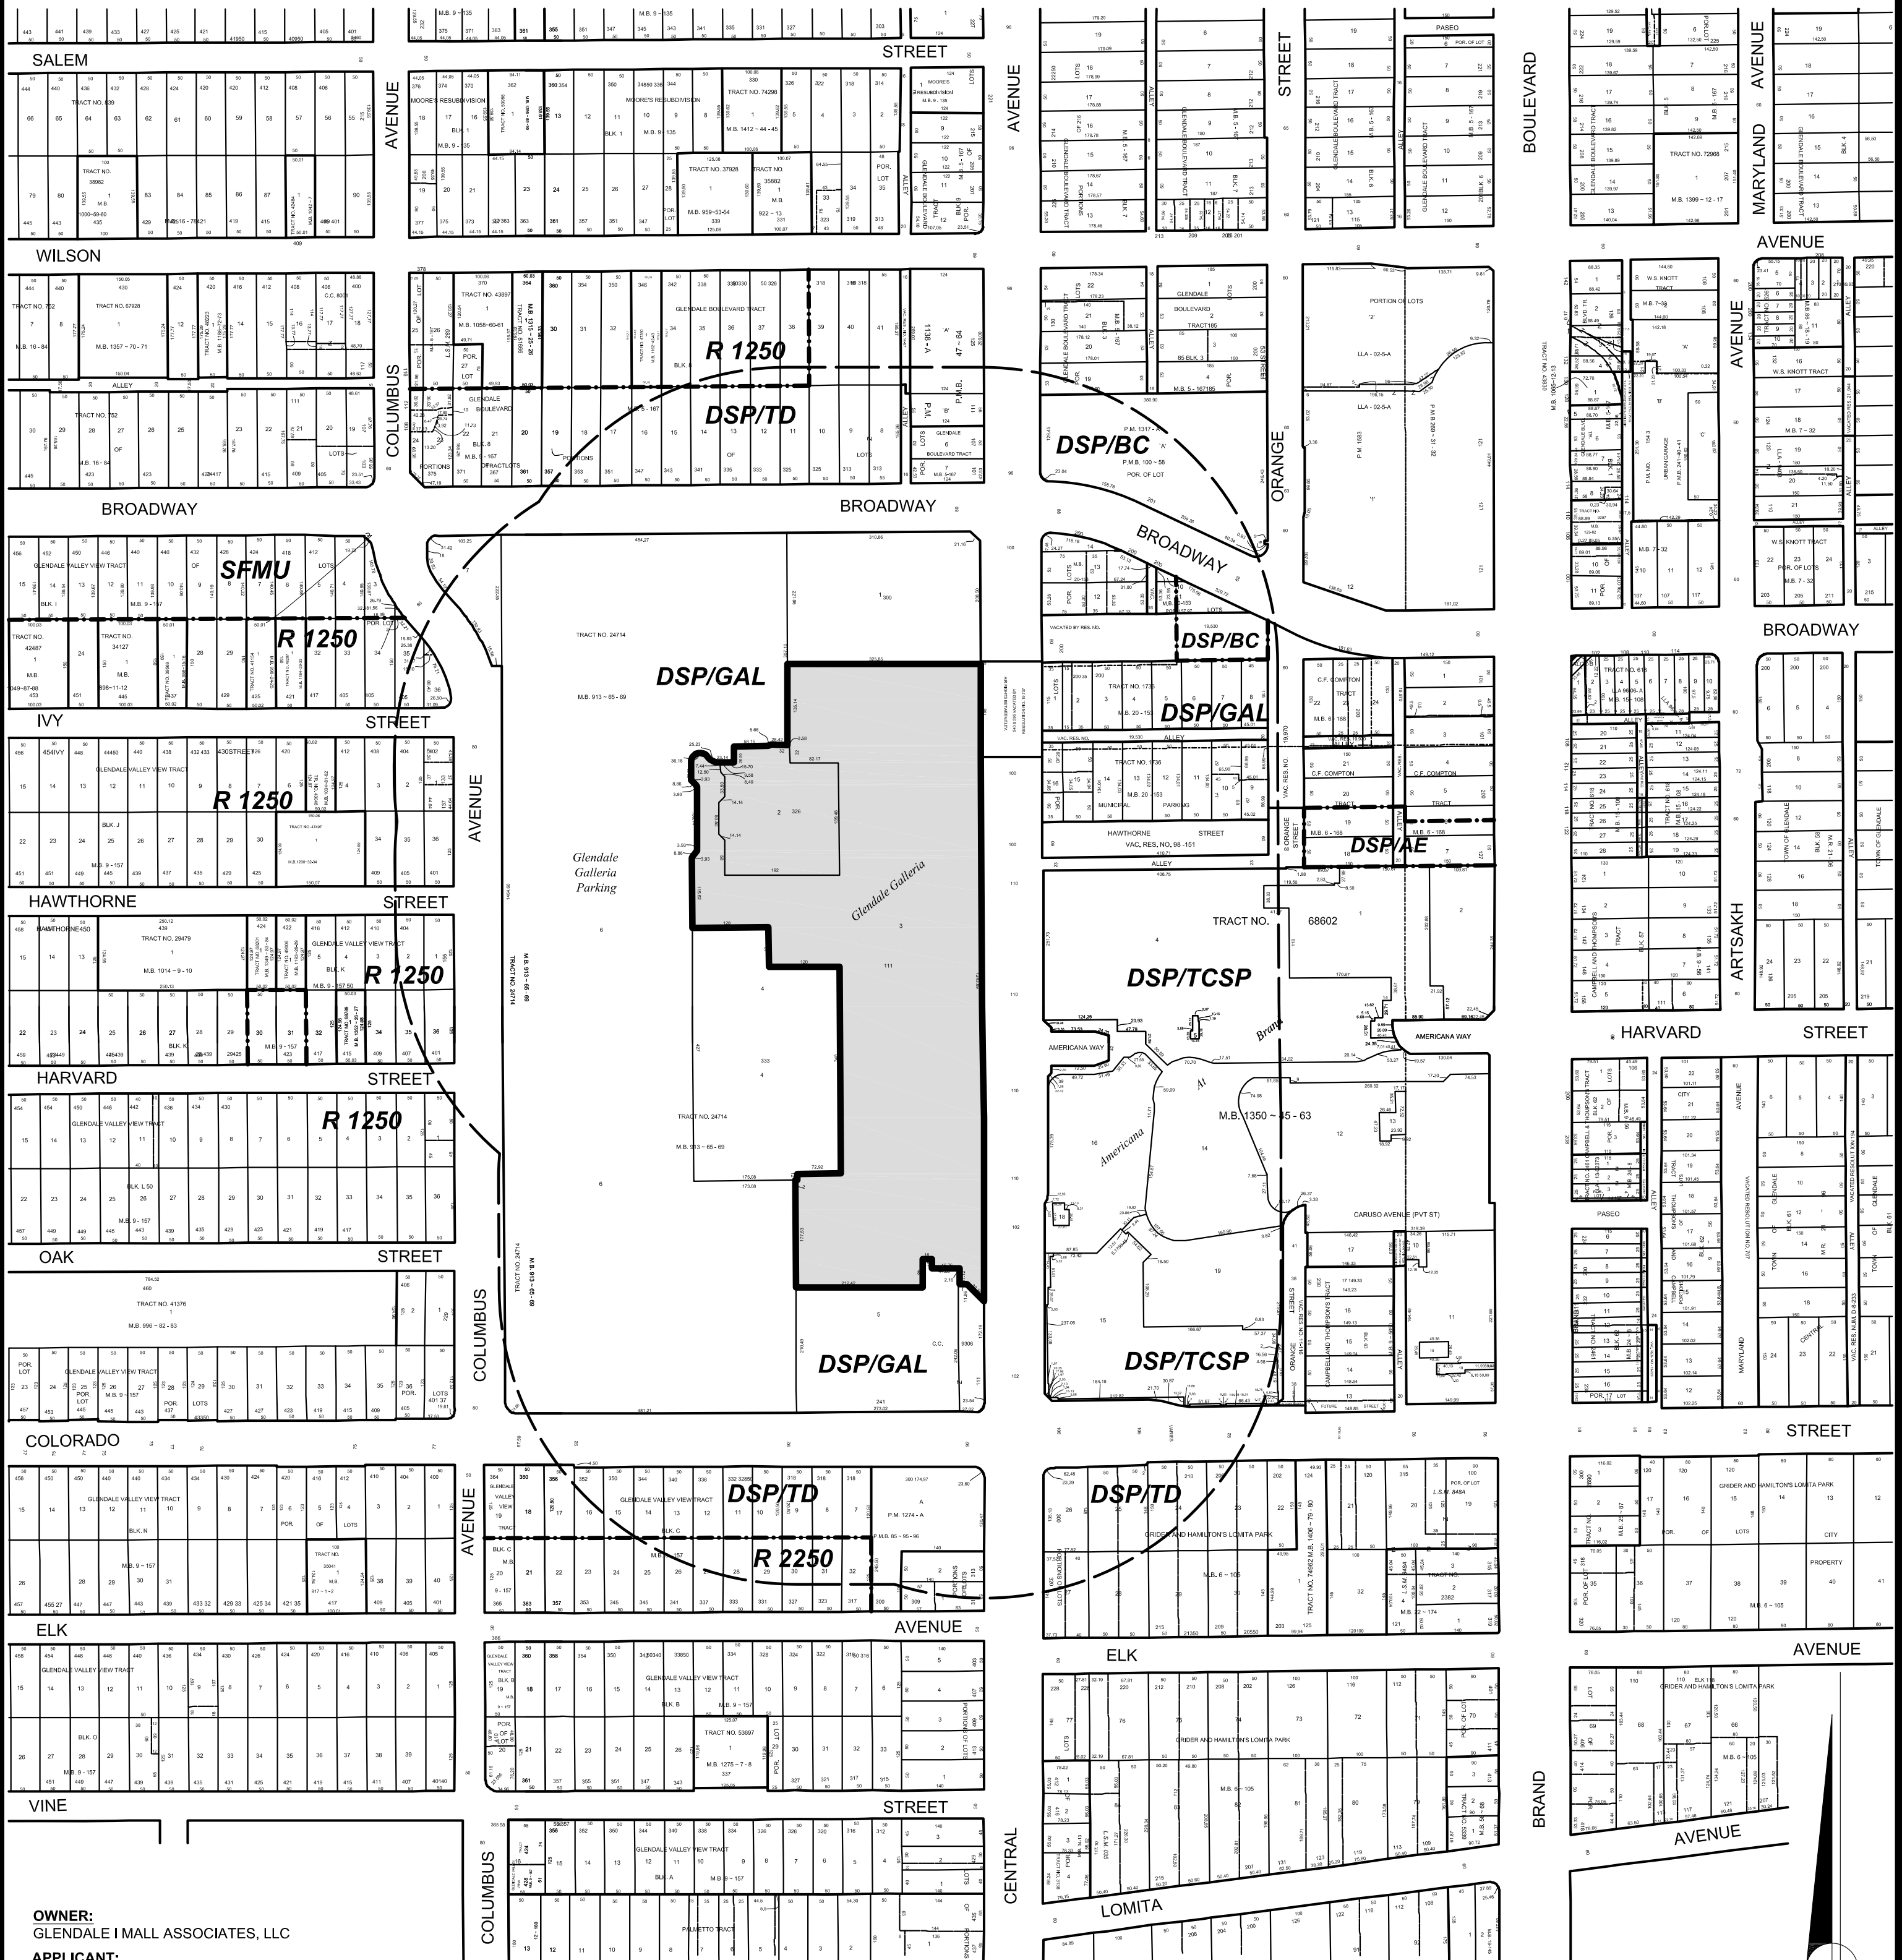

4. That adequate parking and loading facilities are or will be provided for the existing or proposed use or other reasonable alternatives satisfy the transportation and parking needs of the existing or proposed use as described in Finding D above.
5. That notwithstanding consideration in subsections 1 through 4 above, the operation of a new full-service restaurant with the on-site sales, service and consumption of beer and wine does serve a public convenience for the area because it serves local residents, businesses, and the surrounding community. Conditions placed on the approval of the project will ensure that it will not adversely impact nearby businesses and residential uses.

Per the ABC website, Panini Kabob Grill has no "active" or "pending" alcohol license.

****Note:** Concentration levels are higher than average within this particular census tract because it includes **two large shopping malls**, the Americana and Glendale Galleria, which generate a high volume of calls for police service.
