

What is the "Fire Service Date" on my Vegetation Management Program (VMP) invoice?

The Fire Service Date listed on your invoice is not the inspection date for your property. This date reflects when the invoices were generated. To find the actual inspection date for your property, please log into the VMP portal at <https://vmp.glendaleca.gov/#/homepage> or by emailing vmp@glendaleca.gov.

I sold my property, but I am still receiving VMP invoices. What should I do?

If you've sold your property and continue to receive VMP invoices, please contact the L.A. County Assessors Office at (213) 974-3211 or (818) 833-6000 to update the owner's information. The Glendale Fire Department cannot modify ownership records as we receive this information directly from the L.A. County Assessors' Office.
