The ambulance rates that the City of Glendale charges are determined by the latest version of the County of Los Angeles rate schedule.

There shall be service charges for each person who requests an emergency medical response or who medically requires and receives the benefit of emergency medical treatment or transportation in an ambulance dispatched by the city. Such service charges shall be, and not exceed the maximum permitted by the county of Los Angeles general public ambulance rates, as they now exist or as amended, plus all applicable related charges including, but not limited to, consumable supplies. In the event a person receives any emergency medical assessment but is not transported, there shall be a charge reflecting the cost to provide such assessment, but in no event shall the charge be less than one hundred dollars. All charges outlined in Ordinance 5265 and Ordinance 5247 shall be applicable regardless of whether the ambulance dispatched by the city is city-owned, owned by another public agency or commercially owned. Multiple patient service charges shall be prorated when applicable. Please refer to the ordinance for a more details on the service charges.
